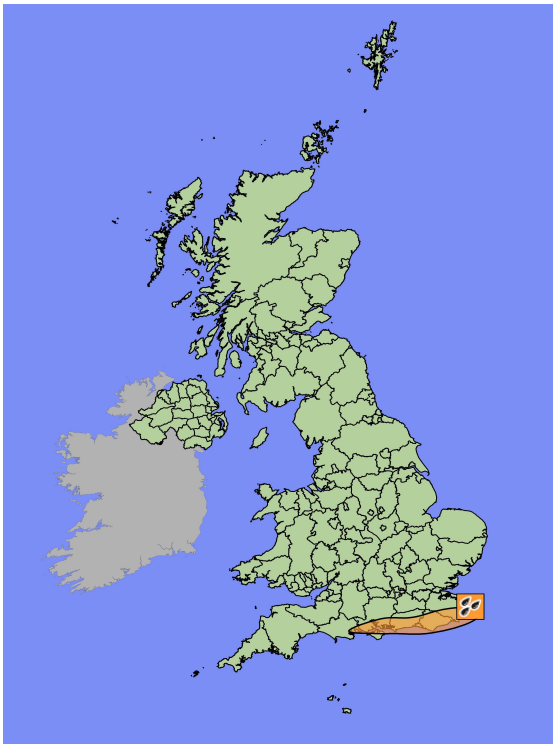
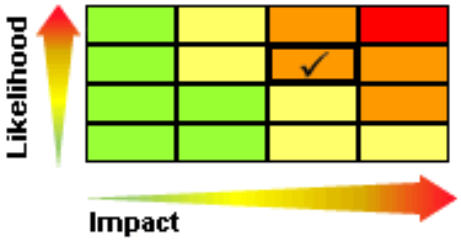
National Severe Weather Warning Service





Chief Forecasters Assessment
A band of heavy showers and thunderstorms is likely to become focused across southern counties of England. 15 to 30 mm of rain could fall in an hour or less in places, with perhaps as much as 50 mm in 3 hours. This will lead to localised flooding, especially since the ground is already saturated.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **15:20 on Wed, 11th Jul 2012** until **21:00 on Wed, 11th Jul 2012**

A band of heavy showers and thunderstorms accompanied by hail will continue to affect some south coastal counties of England through this afternoon and into the early evening. The public should be prepared for an increased risk of localised flooding and disruption to travel, particularly during today's rush hour. The showers should gradually ease from the west this evening.
